

ADVANTAGES

- Lightweight, compact ducted filter module for clean processes or medical suites.
- Available in 53mm or 70mm pack depth with a filter frame depth of 6" or 7.25" respectively.
- Low pressure drop saves energy and low life-cycle cost reduces disposal costs.

Application	Pharmaceutical and semiconductor manufacturing facilities, medical facilities and other clean process applications.
Frame	Anodized aluminium
Media	Glass fiber
Recommended final pressure drop	2x Initial pressure drop
Comment	95% at 0.3 μ to 99.9995% at most penetrating particle size (MPPS). Tested in accordance with IEST Recommended Practice for Testing HEPA Filters. UL 900.
